

## Hire a pro, we'll do it all for you

A premium, bespoke service  
for your branded game

“ Branded Mini-Games is an **effective mobile marketing solution** that transforms your brand into an engaging advergame with social competitions. ”

### WHAT IS ENTERPRISE

Branded Mini-Games Enterprise is a premium service that helps you create a high-quality social advergame easily

We are a team of gaming experts who specialize in creating HTML5 social games for advertising. We deliver high-quality and customized advergames according to your specific requirements.

### HOW IT WORKS

Simple. Just let us know your campaign requirements and provide us your brand assets such as logo and product images. Then we will transform your assets to an amazing social game and help you get ready to launch your campaign.

### WHY ENTERPRISE

#### Complete customised game design

We design and customize high-quality game and graphics according to your campaign requirements.

#### Game mock-ups and user flow

We help you visualize your campaign before production with tailored game mock-ups and user flows to ensure your campaign will be successful.

#### Reduced time and effort for you

We manage the entire process for you – from conceptualizing to game delivery, helping you save time and money.
